8.0 CURRENCY

The Ghana Cedi (GH¢) is the local currency used to perform transactions in Ghana.

Currently, the cedi equivalent to a US Dollar is **\$ 1.00 = GH¢ 12.21** (As at 13 October 2025)

Banks in Ghana operate between the hours of 8:00 AM and 5:00 PM. ATMs work 24/7. Some supermarkets, malls, restaurants and hotels accept credit/debit cards as a mode of paying for items purchased.

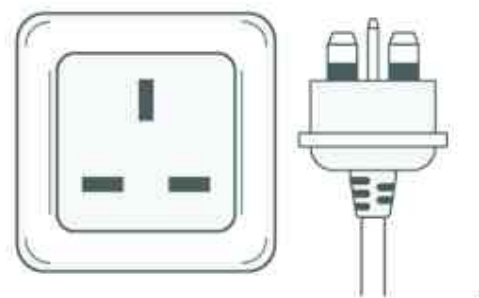

Please convert cash to US Dollars, Euro or British Pounds Sterling if you plan to carry cash.

You may not be able to find Forex in Ghana that can accept other currencies other than what has been quoted above.

9.0 ELECTRICITY

All power sockets in Accra provide a standard voltage of 220V with a standard frequency of 50Hz. Most power plugs and sockets in Ghana are type G. You may rarely find a type D. Find a sample in the image attached.

We encourage you to bring travel adapters if these are not your home socket types.

You can use all your equipment in Accra if the outlet voltage in your own country is between 220V-240V. This is the case in most of Africa, Europe, the United Kingdom and most countries in Asia.

If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in order to use your gadgets in Ghana.

Participants are advised to pack appropriate clothing for weather changes.

11.0 WEARING OF BADGES

Participants are advised to wear their badges at all times during the event for easy identification.

12.0 INTERNET CONNECTION ON SITE

The organisers will provide internet access at the activity sites. Details will be communicated to delegates on arrival.

13.0 SECURITY IN GHANA

Ghana is considered to be a safe country compared to others. While violent crime rates are relatively low, it is important to remain cautious to avoid petty crime.

As an international participant, it is important to exercise caution and adhere to any security advice provided by the organisers, even in a peaceful and secure country like Ghana.

13.1 Nightlife and Wandering Alone

Although Ghana is a safe country, participants are encouraged to walk in pairs or groups at night. Kindly desist from wandering alone.

The organisers have taken the liberty of arranging transport to selected places at night if you wish to hang out.

If you wish to go out to get anything, kindly request support from the help desk, and a chaperone will be assigned to help in this regard. We strongly advise against going out on your own.

We advise that you carry some form of identification with you at all times.

13.2 Care of Personal Belongings

It is advised not to leave personal belongings such as bags, cell phones or laptops unattended, and to avoid carrying large amounts of cash.

All participants are encouraged to take good care of their personal belongings, such as bags, phones, laptops, ID cards and other vital documents, as the organisers will not take responsibility for missing items.
